

Little Star – Berget Lewis

Couplet 1:

Like a falling star

We didn't even see it coming

Like lightning from above

Straight to our hearts and it knocked us over

We are in so much pain

Were we waiting in vain?

There are no words to explain

Little star ...

Chorus:

Little star shining bright

You're a peacemaker

Little star shining bright (passing by)

You're a peacemaker while I'm

Trying to understand

What's the meaning of this

Little star shining bright

Couplet 2:

Now we realise

You're our miracle
As small as you are, you opened our hearts
And we found each other
Once divided
Now reunited
You brought us together
Now we're stronger than ever
Little Star oooh

Chorus:

Little star shining bright
You're a peacemaker
Little star passing by
You're a peacemaker
While I'm trying to understand
What's the meaning of this
Little star shining bright

Bridge:

We know that you're around, in everything that we do
While you spread your wings and fly
Never close-by but we'll always love you

Your star will be our guide
In every day and every night
Little star shining bright yeah

Chorus:

Little star shining bright
You're a peacemaker
Little star passing by
You're a peacemaker
Now I understand what's the meaning of this

Little star shine your light
Little Star shining bright
Little Star shine your light
Yeah!

Shine your light
Shine bright
